We neglected to state last week that a very interesting game of football was played in Fulewider's field near Jackson on Thanksgiving day between Jackson and Farmington. This game was for the championship of southeast Missouri, hence it was an exciting game from start to finish. It was a fair square game and each team did its best. Farmington won by a score of 5 to 0. This makes the Farmington "Tigers" the champion football team of southeast Missouri. The manager of the Jackson team tells us that a more sociable, genial set of fellows could not be found than the "Tigers". The aggregate weight of the two teams was nearly equal, Jackson being fourteen pounds the heavier.

## HOME AND CHILD

Does your horse "feel his oats"? What a difference between the grain-fed and the grass-fed horse! The first strong and full of ginger, the second flabby, weak and tired out before he begins. The feeding makes the difference.

Children are not alike either. One is rosy, bright-eyed, full of life and laughter, another is pale, weak and dull. The feeding again is responsible.

Sickly children need special feeding. They don't "feel their oats". Scott's Emulsion adds just the right richness to their diet. It is like grain to the horse. The child gets new appetite and strong digestion.

Scott's Emulsion is more than food. It is a strong medicine. It rouses up dull children, puts new flesh on thin ones and red blood into pale ones. It makes children grow.

Scott's Emulsion makes ordinary food do its duty.

This picture represents the Trade Mark of Scott's Emulsion and is on the wrapper of every bottle.
